Deliver engaging online learning experiences

RailSmart Virtual Campus – a proven learning suite that offers more than just a learning management system (LMS)

RailSmart Virtual Campus (powered by award winning LMS Docebo) allows you to ensure your training and development strategy is supported by your employees and wider business network to deliver critical learning outcomes.

With anytime and anywhere access, RailSmart Virtual Campus supports, captures and allows you to analyse all key elements of an individual's learning journey.

The highly customisable interface allows you to reflect your preferred corporate branding as well as easily create configurable pages, menus and a general layout that ensures fluid navigation and next-level engagement for your learners.

"Partnering with 3Squared for our competency management solution EDS, gave us every confidence in choosing their newly released RailSmart Virtual Campus as our LMS. We are looking forward to accessing the comprehensive catalogue of pre-built courses from this robust and well acknowledged platform."

Adam Youd, Learning and Development Manager, Merseyrail

Manage Learning Goals

Reduce the administrative side of learning management, whilst gaining full traceability.

RailSmart VirtualCampus allows you to **manage learning outcomes** by:

- Maintaining and tracking learner performance
- Driving **wider learning outcomes, including personal development and knowledge retention**
- Consolidating and streamlining key content

Track and Report

Keep track of learning progress by filtering data using dates, employees, teams, roles and locations.

RailSmart VirtualCampus allows you to **track and report** whilst helping you:

- **Develop wider engagement strategies**
- **Track, report and utilise automated prompts**
- **Minimise your administrative overheads**

Integratable SaaS Solution

Interface to your corporate systems through the readily available, open APIs.

RailSmart VirtualCampus **integration** capabilities means it is:

- **Available as a stand alone learning suite**
- **Integratable with other platforms including RailSmart EDS**
- **Secure and scalable – offering access on the go**
